General Information about Checksheet: Superscripted annotation after the course number (1) indicates core course of the degree while (2) indicates courses associated with the major. Additionally, (F, S, SI, SII) in credits column indication terms when a course is expected to be offered. Course offerings are subject to change and the availability of sufficient resources. Students should confirm course offerings in advance with their department.

Pathways to General Education Concepts

Consult the Pathways courses table: <https://www.pathways.prov.vt.edu/about/table.html>. Pathways courses need to be completed prior to graduation.

Pathways Concept 1: Discourse (6 hrs foundational, 3 hrs advanced)	<i>Foundational: ENGL 1105</i>	(3)	<i>Foundational: ENGL 1106</i>	(3)
	<i>Advanced: ECE 4805 + ECE 4806</i>			(6)
Pathways Concept 2: Critical Thinking in the Humanities (6 hrs)		(3)		(3)
Pathways Concept 3: Reasoning in the Social Sciences (6 hrs)		(3)		(3)
Pathways Concept 4: Reasoning in the Natural Sciences (8 hrs)	CHEM 1035 + CHEM 1045	(4)	PHYS 2305	(4)
Pathways Concept 5: Quantitative and Computational Thinking (11 hrs)	<i>Foundational: MATH 1225</i>	(4)	<i>Foundational: MATH 1226</i>	(4)
	<i>Advanced: MATH 2214</i>			(3)
Pathways Concept 6: Critique and Practice in Design and the Arts (7 hrs)	<i>Arts (6a):</i>			(3)
	<i>Design: ENGE 1215 + ENGE 1216</i>			(4)
Pathways Concept 7: Critical Analysis of Identity & Equity in the US (3 hrs)	*Pathways 7 should be double counted with either Pathways 2, 3 or 6a to avoid taking any additional credit hours.			(3)

Electives

The Chip-Scale Integration Major requires 5 hours of free electives. Only free electives may be taken under the P/F grading option. Students are encouraged to use free elective credits to provide depth in their major or secondary focus.

Secondary Focus

The Chip-Scale Integration Major requires 9 credits from a secondary focus area. All 9 credits must be from one ECE focus area from the attached list or from an approved individualized secondary focus plan. At least 3 credits must be at the 4xxx level.

Change of Major Requirements: For Change of Major requirement, please see:

<http://www.enge.vt.edu/undergraduate-changing-majors.html>

Foreign Language Requirements: Students must have had 2 years of a foreign language in high school or one year at the college level (6 credit hours) of the same language. College-level credits used to meet this requirement do not count towards the degree.

Satisfactory Progress Towards Degree: University Policy 91 outlines university-wide minimum criteria to determine if students are making satisfactory progress towards the completion of their degrees. The ECE Department fully supports this policy. Specific expectations for satisfactory progress for BSCPE and BSEE majors are as follows:

- Each student must meet the minimum University-wide criteria as described in Policy 91 and summarized in the Undergraduate Catalog (under Academic Policies)
- Upon completing 2 semesters in ECE, students must have satisfactorily completed ECE 2024, ECE 2514, ECE 2544, MATH 2214, and PHYS 2306
- Upon completing 3 semesters in ECE, students must have satisfactorily completed ECE 2804.
- Upon attempting 90 credits, BSCPE and BSEE students must have successfully completed 33 credits of in-major courses and have 2.0 overall and in-major GPAs. (In determining the BSCPE and BSEE in-major GPA, all ECE courses, including repeats, are used).

Grade Requirement: Students must earn a C or higher in the following ECE courses: ECE 1004, ECE 2024, ECE 2214, ECE 2514, ECE 2544, ECE 2564, ECE 2714, ECE 2804.

Statement of Prerequisites: Pre-requisites for each course are listed after the course title. In general, all ECE courses require a C- or better in prerequisite courses. Students must earn a C or higher in the ECE courses listed above. There are no hidden prerequisites in this program of study. Prerequisites may change from what is indicated. Be sure to consult the Timetable of Classes or check with your advisor for the most current requirements.

Graduation Requirements: Each student must complete at least 131 semester credit hours with a minimum overall GPA of 2.00 and a minimum in-major GPA of 2.00. In determining the Chip-Scale Integration in-major GPA, all ECE courses, including repeats, are used.

SECONDARY FOCUS REQUIREMENT

Chip-Scale Integration Major

For Students Graduating in Calendar Year 2022 and for student date of entry under UG Catalog 2020-2021

FOCUS AREAS WITHIN ECE

The courses listed below have been approved for the ECE focus areas. Students must choose 3 courses from a single focus area which **DO NOT DUPLICATE** major requirements. At least one course must be at the 4xxx level. **Actual course offerings will be based on sufficient resources, including faculty availability and student demand.** Refer to the University's on-line timetable of classes for specific course availability information and prerequisite. Note: All ECE courses require a **C- or better** in prerequisite courses.

CONTROLS, ROBOTICS, AND AUTONOMY

- ECE3714 (3) INTRODUCTION TO CONTROL SYSTEMS, Pre: 2704 or (2714, 2804)
- ECE4524 (4) ARTIFICIAL INTELLIGENCE AND ENGINEERING APPLICATIONS, Pre: (2574 or 3514), STAT 4714
- ECE4580 (3) DIGITAL IMAGE PROCESSING
- ECE4704 (3) PRINCIPLES OF ROBOTICS SYSTEMS, Pre: (2704 or (2714, 2804)) or (ME 3514, STAT 3704)

INDEPENDENT STUDIES AND UNDERGRADUATE RESEARCH

ECE 4974 Independent Study and ECE 4994 Undergraduate Research listed below can *generally* be used as part of the Secondary Focus Area if the topic of the course fits with student's stated career goals and the student has a faculty for supervising the course. Please discuss Secondary Focus Area options for ECE 4974/ECE 4994 with your advisor prior to completing the required paperwork to add these courses. For purposes of satisfying the Secondary Focus requirements, the sum of the number of hours taken from ECE 4974 and 4994 cannot exceed 6 credits.

4974 (ARR) Independent Study
4994 (ARR) Undergraduate Research

Students must complete the College of Engineering Undergraduate Research/Independent Study Form, the ECE Undergraduate Research/Independent Study Secondary Focus Proposal Form, and the ABET Breakdown prior to registration. To be considered for inclusion in the Secondary Focus, all forms are due to the ECE Student Services office no later than 2 weeks before classes begin for the requested semester – no exceptions. Forms are available online at www.ece.vt.edu/undergrad/policies.

INDIVIDUALIZED SECONDARY FOCUS (Must be preapproved by ECE Department)

The Chip-Scale Integration Major requires 9 credits from a secondary focus area. All 9 credits must be from one ECE focus area from the attached list or from an approved individualized secondary focus plan. At least 3 credits must be at the 4xxx level. The individualized secondary focus helps students pursue their interests. This option can be used in place of a pre-defined, in-department secondary focus.

The individualized secondary focus is pursued via a university-approved program taken from a single degree, major, minor, or certificate. Students can select courses from these programs, subject to the guidelines below.

- 1) To begin this process, students must first meet with their academic advisor.
- 2) The student must complete a brief proposal form describing the expected added value to their major. This includes a narrative about how these courses support the student's career goals and ability to achieve their professional aspirations. This proposal must be approved by the Director of Undergrad Program or designee.
- 3) Individualized secondary focus plans must include 3 courses within the following parameters:
 - a. None of the courses may duplicate the student's ECE major requirements.
 - b. None of the courses can be at the 1xxx level (1xxx courses required for university-approved programs, e.g. minors, can be used for a student's free electives).
 - c. A maximum of one course can be at the 2xxx level, and only if it is a requirement of a university approved program, or if the course is a prerequisite to one or more of the other two courses in the individualized secondary focus.
 - d. A minimum of one course must be at the 4xxx level.
- 4) If the set of courses is part of an already defined university program outside of ECE, the student should attach documentation from the course catalog to the proposal form.
- 5) Exception: If the set of three courses are *not* part of an already defined university-approved program, the student must also obtain written approval from the single department that houses the courses.
- 6) It is the student's responsibility to ensure that the set of courses is available to be taken in a timely manner. The ECE department is not responsible for changes of programs elsewhere in the university.
