Plant Disease Clinic Landscape Professionals Survey 2022

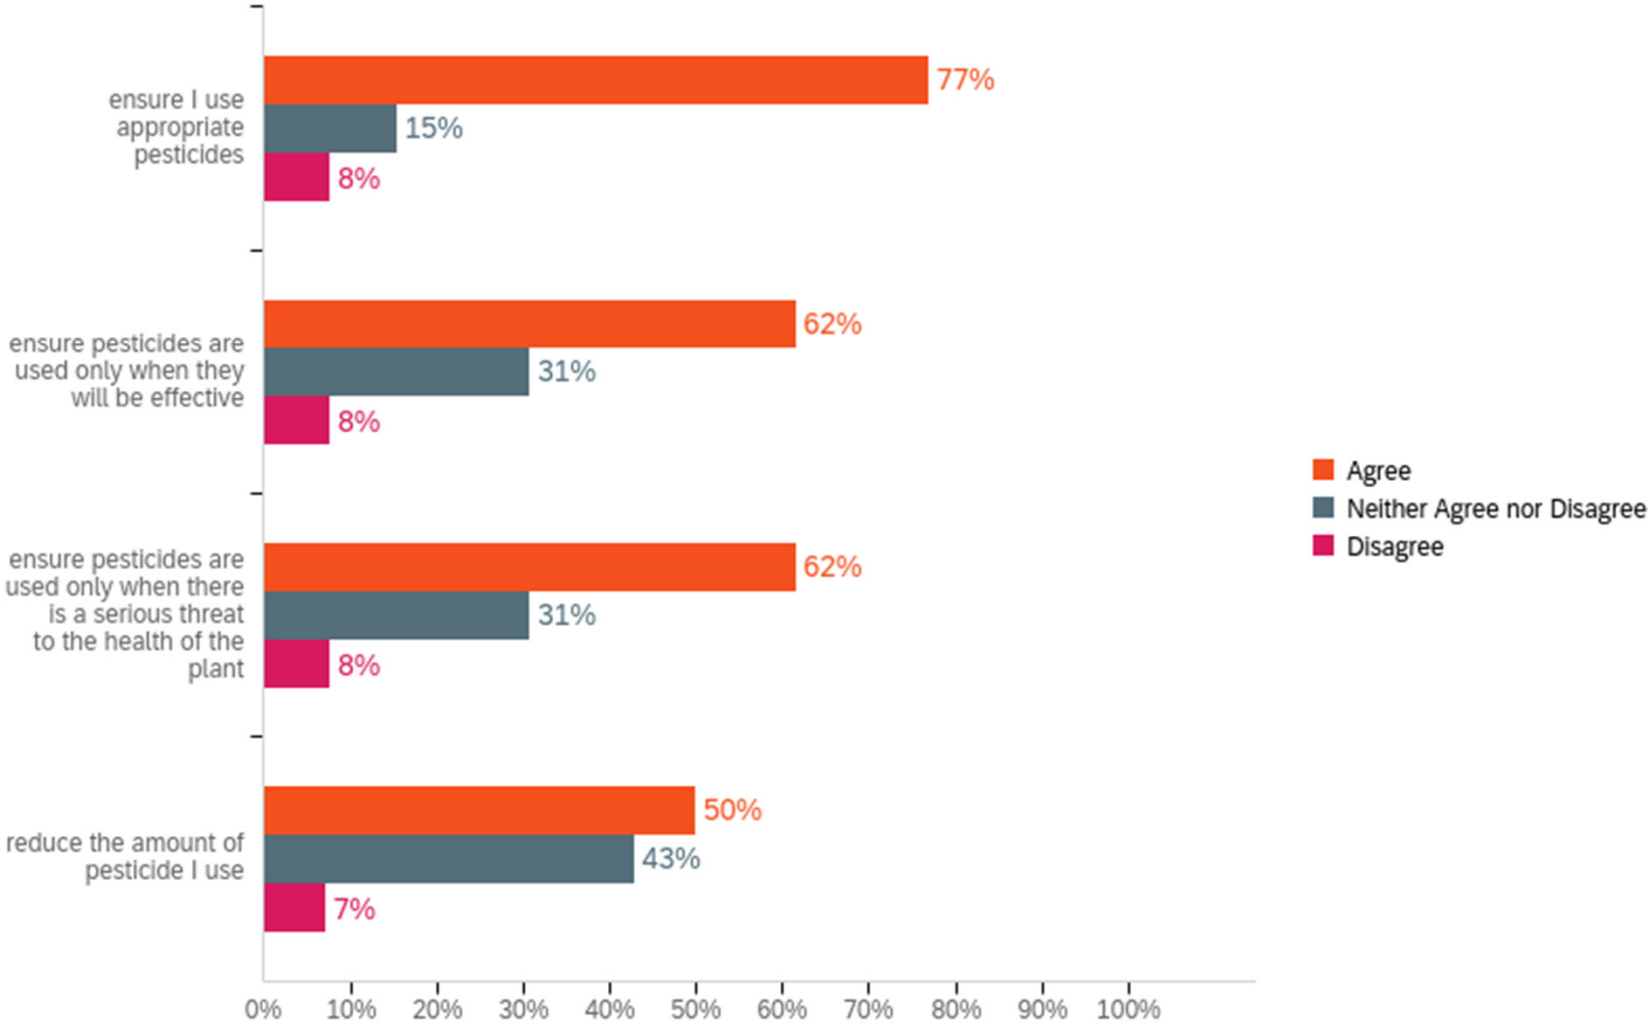

In December 2022 an electronic Qualtrics survey was emailed to landscape professional and other professional clients (e.g. arborists, grounds management) who included an email address on their diagnostic form and submitted a plant sample in 2022. Of 42 successfully delivered emails, 15 landscape professional clients responded to the survey (36% response rate).

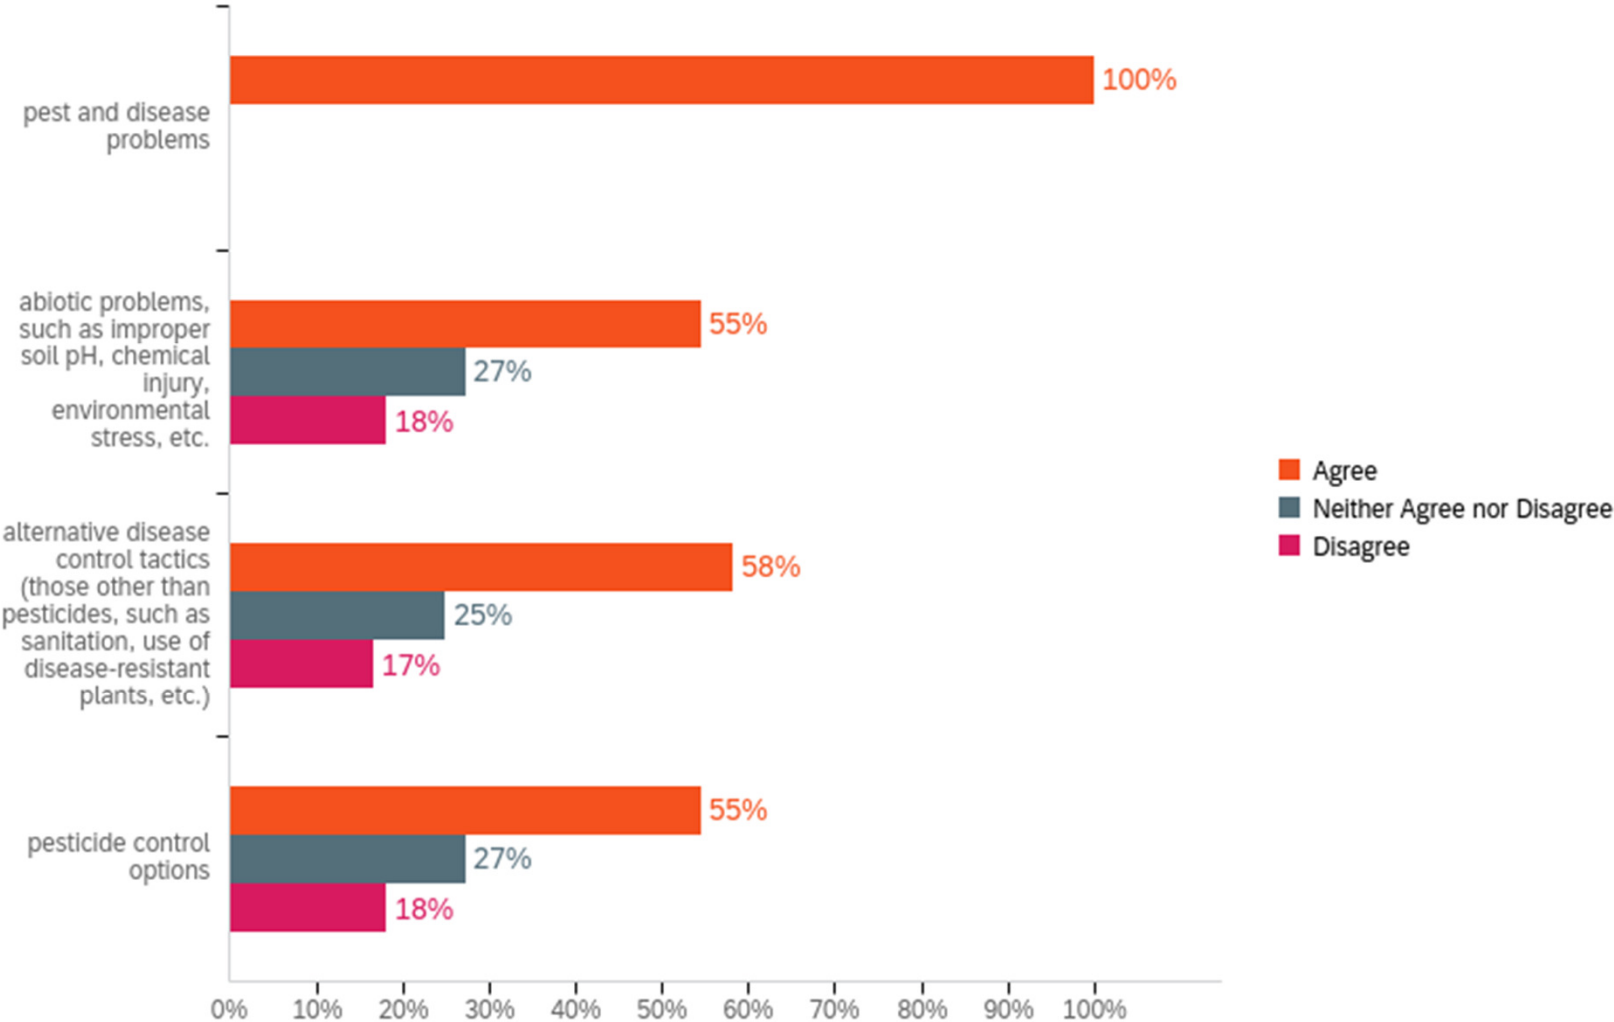

Did you receive your Plant Disease Clinic diagnostic report(s)?

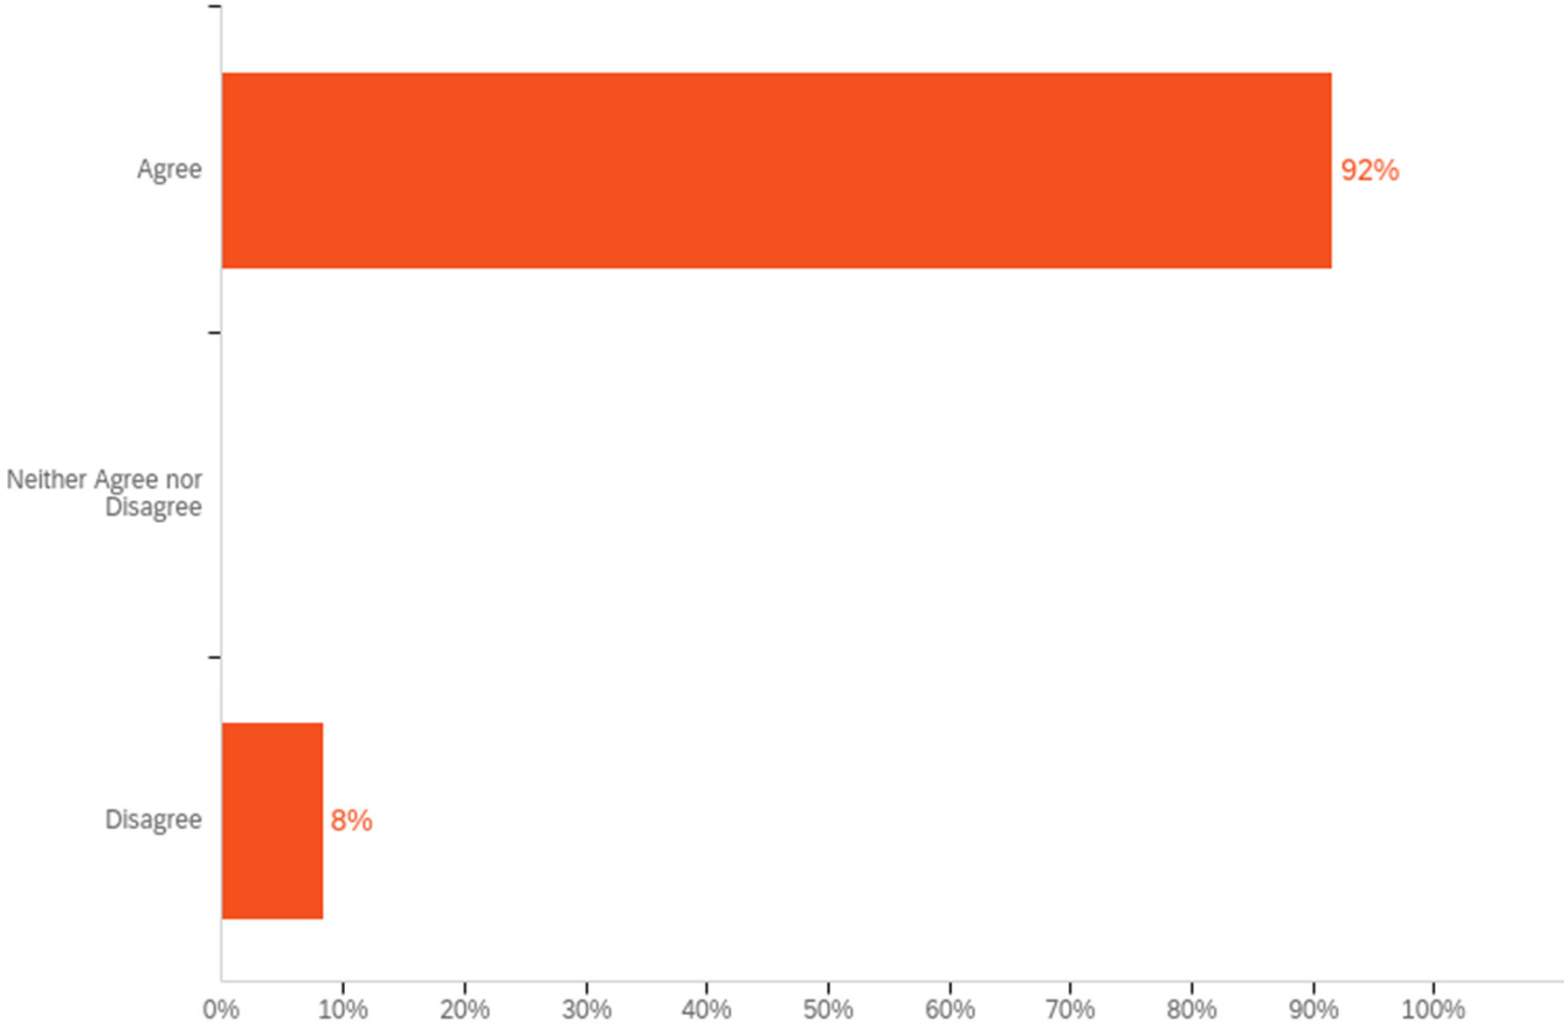

The Plant Disease Clinic diagnostic services

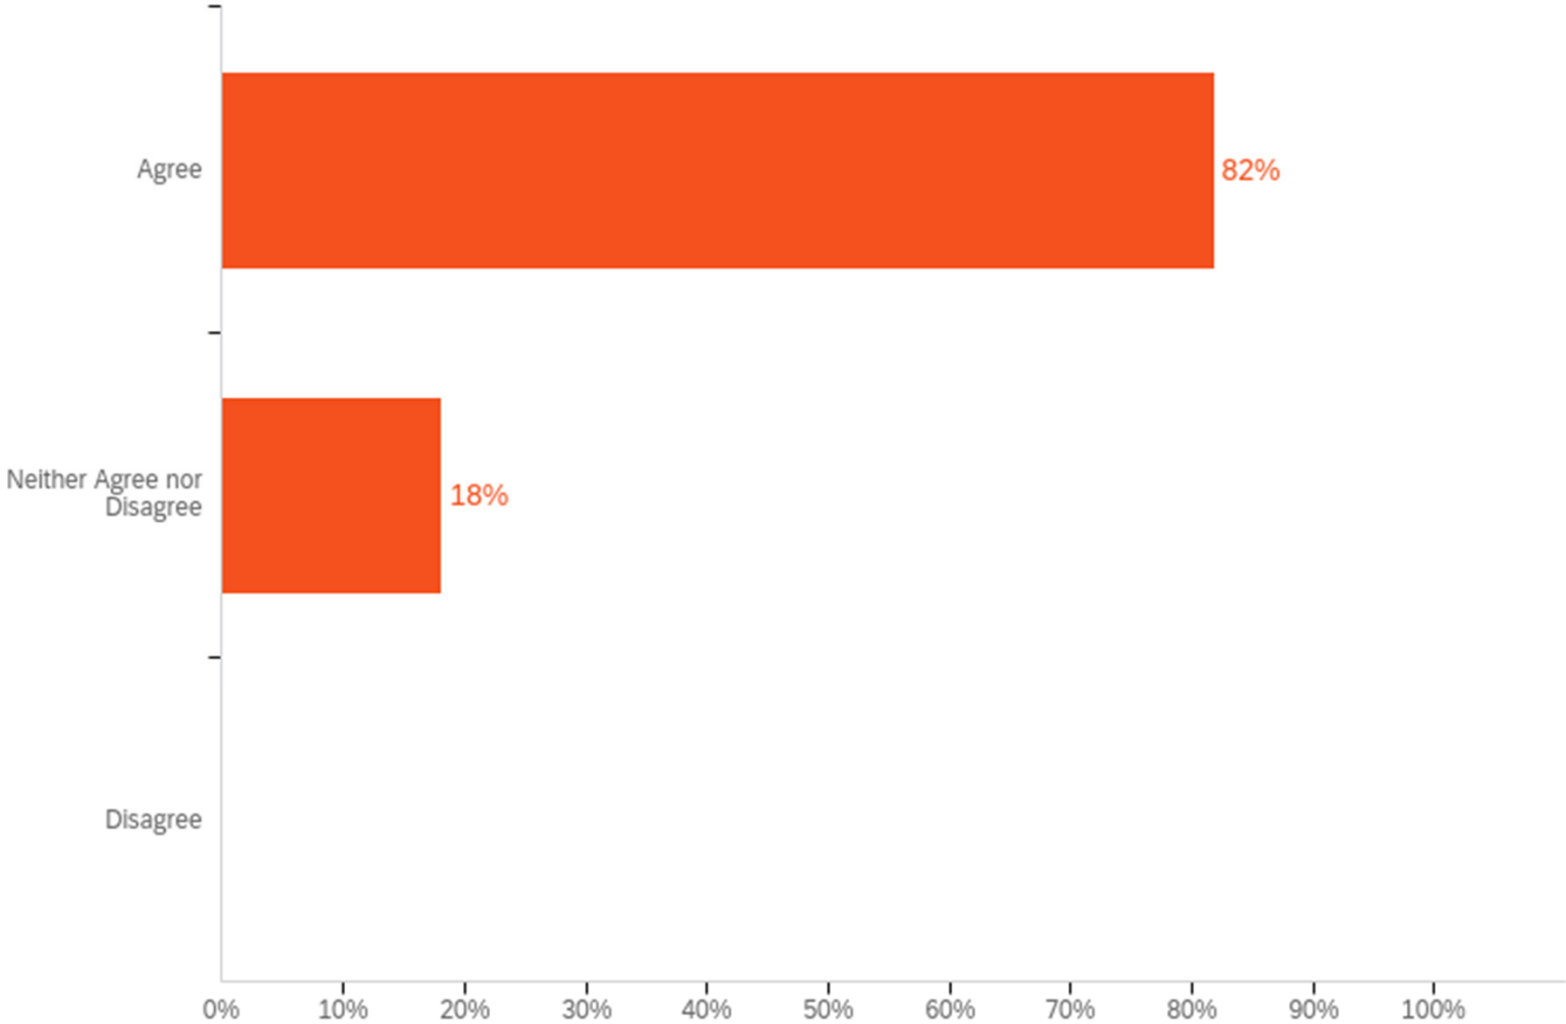

The Plant Disease Clinic diagnostic services increase my knowledge of:

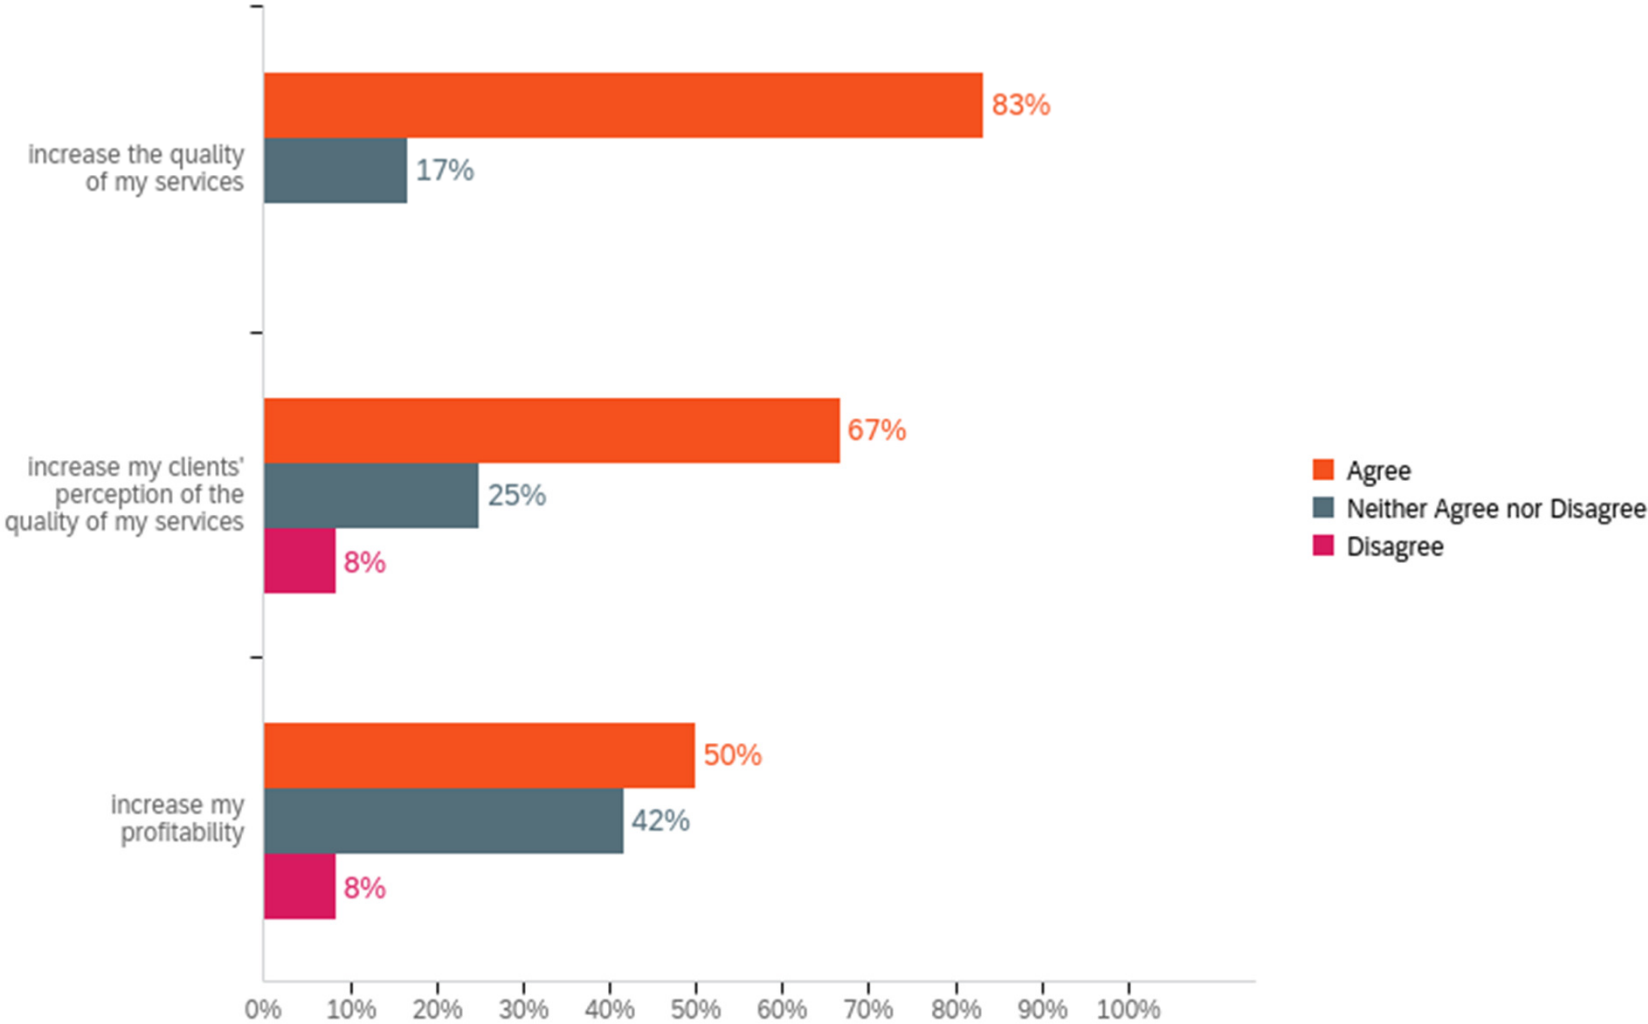

The Plant Disease Clinic diagnostic services help me implement alternative control tactics (those other than pesticides).

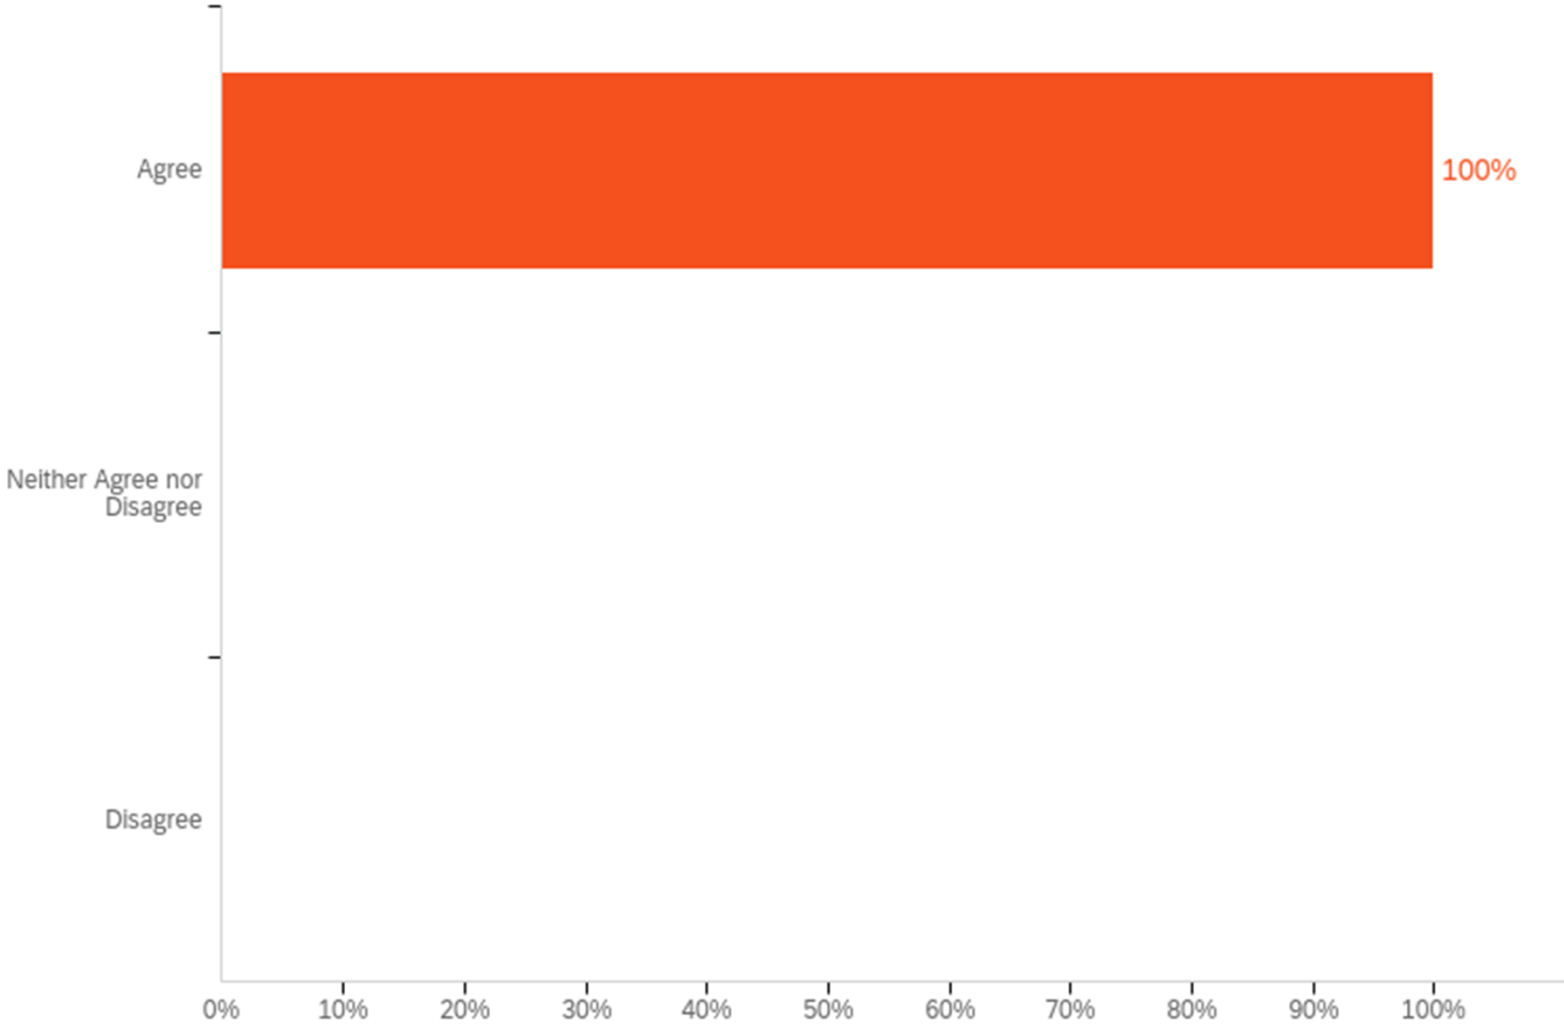

The Plant Disease Clinic diagnostic services ensure accurate diagnosis.

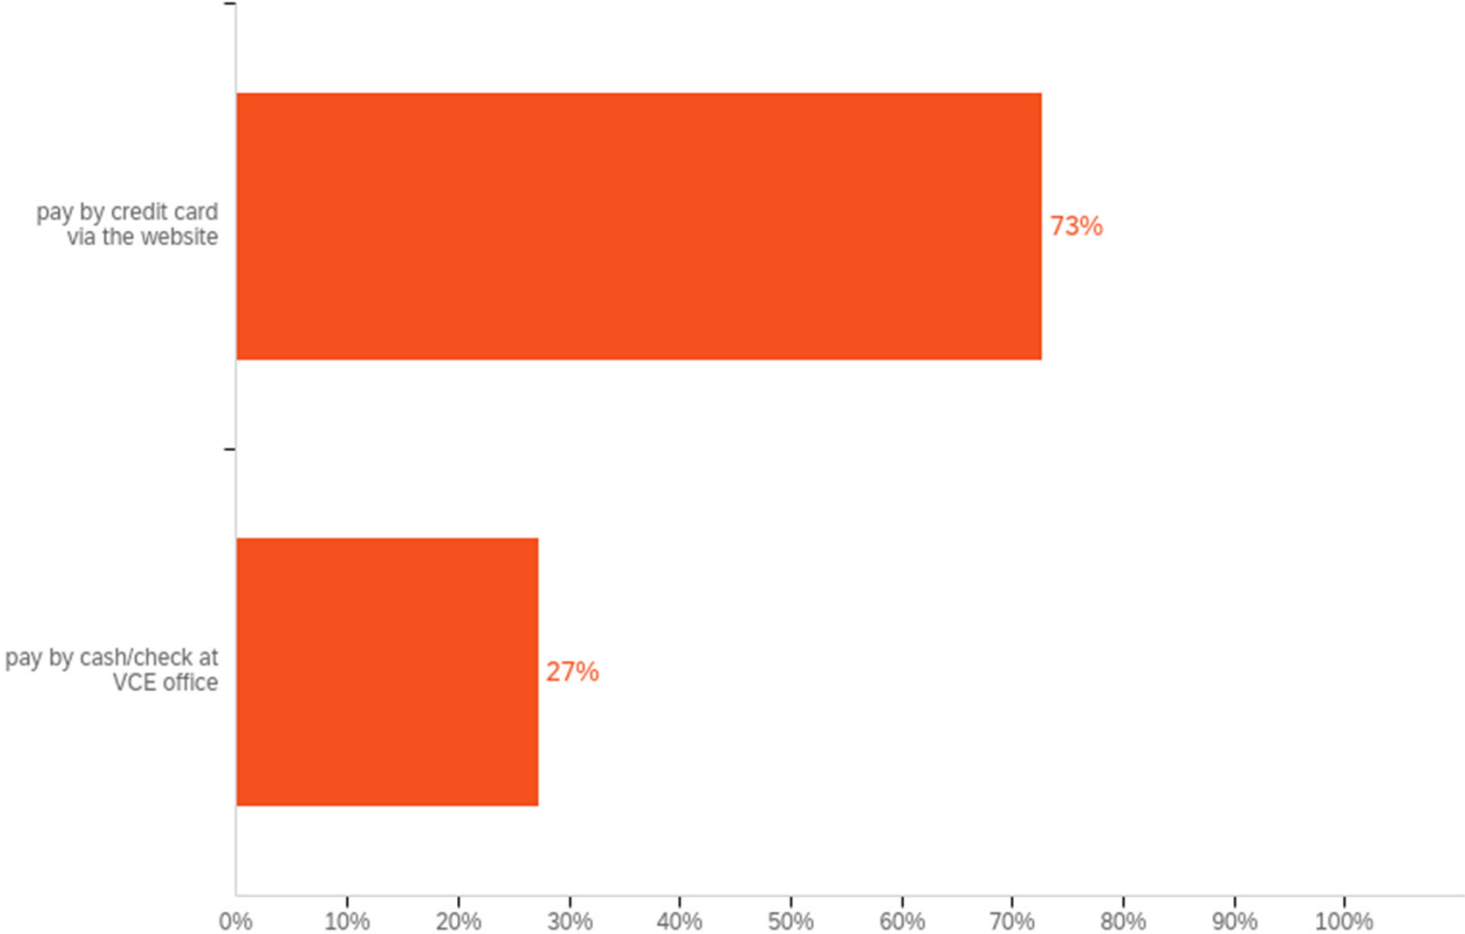

The Plant Disease Clinic diagnostic services:

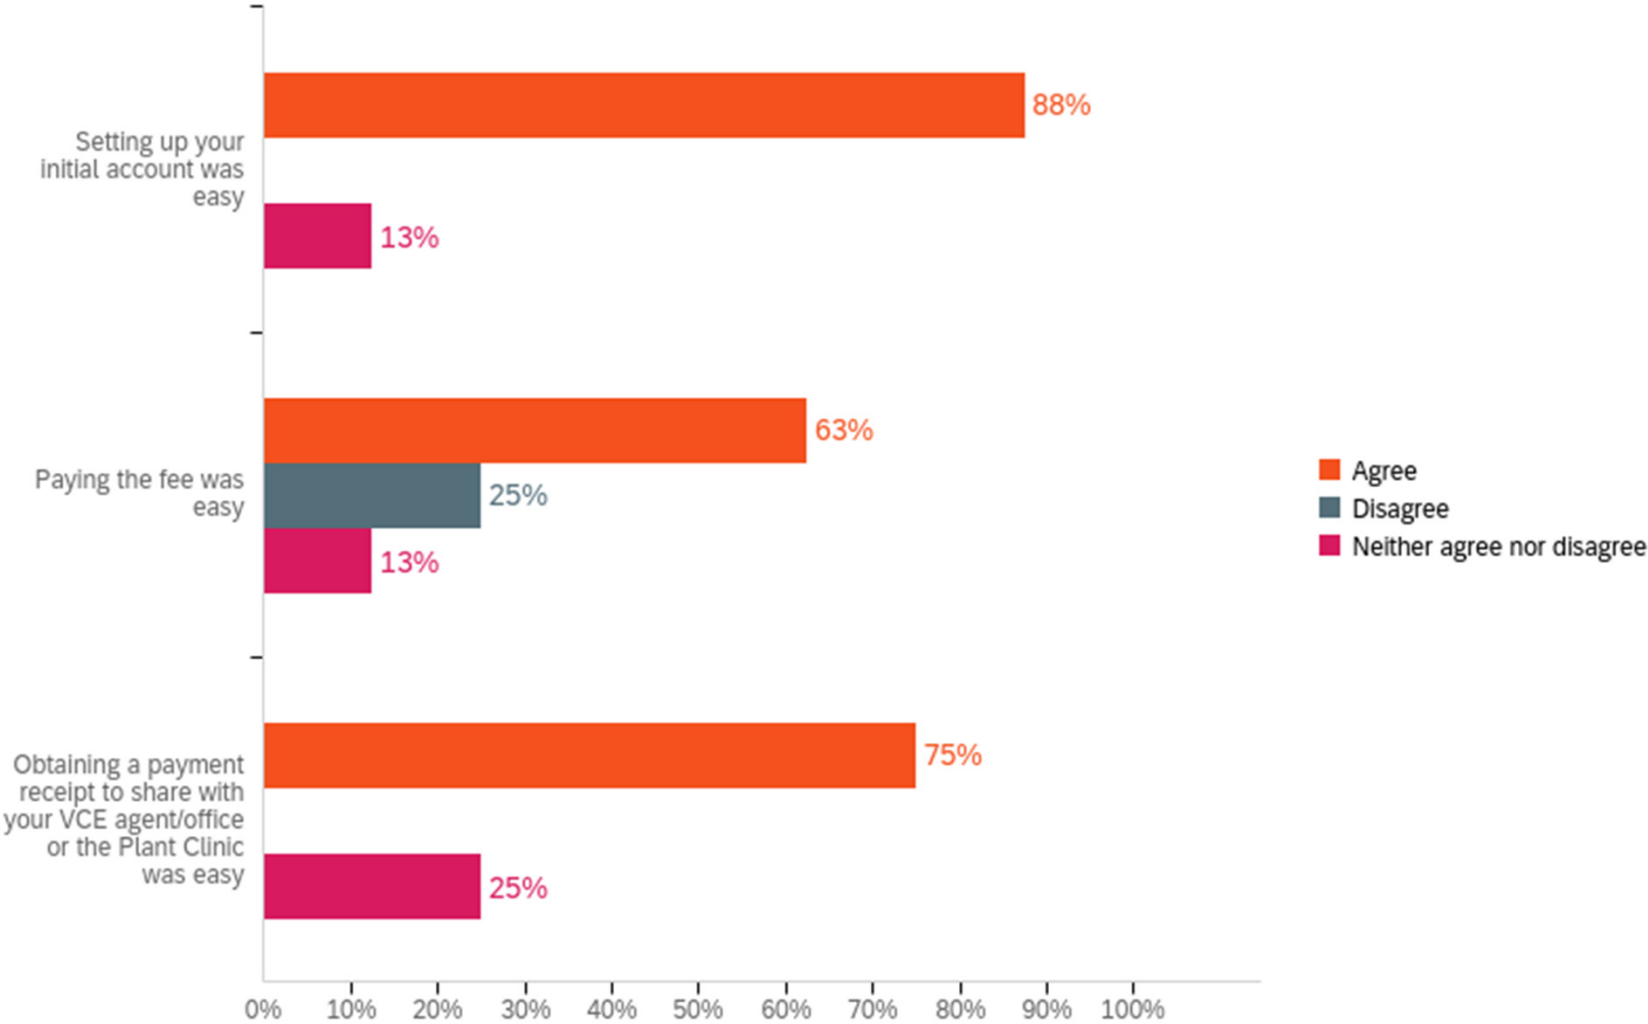

I value the services provided by the Plant Disease Clinic.

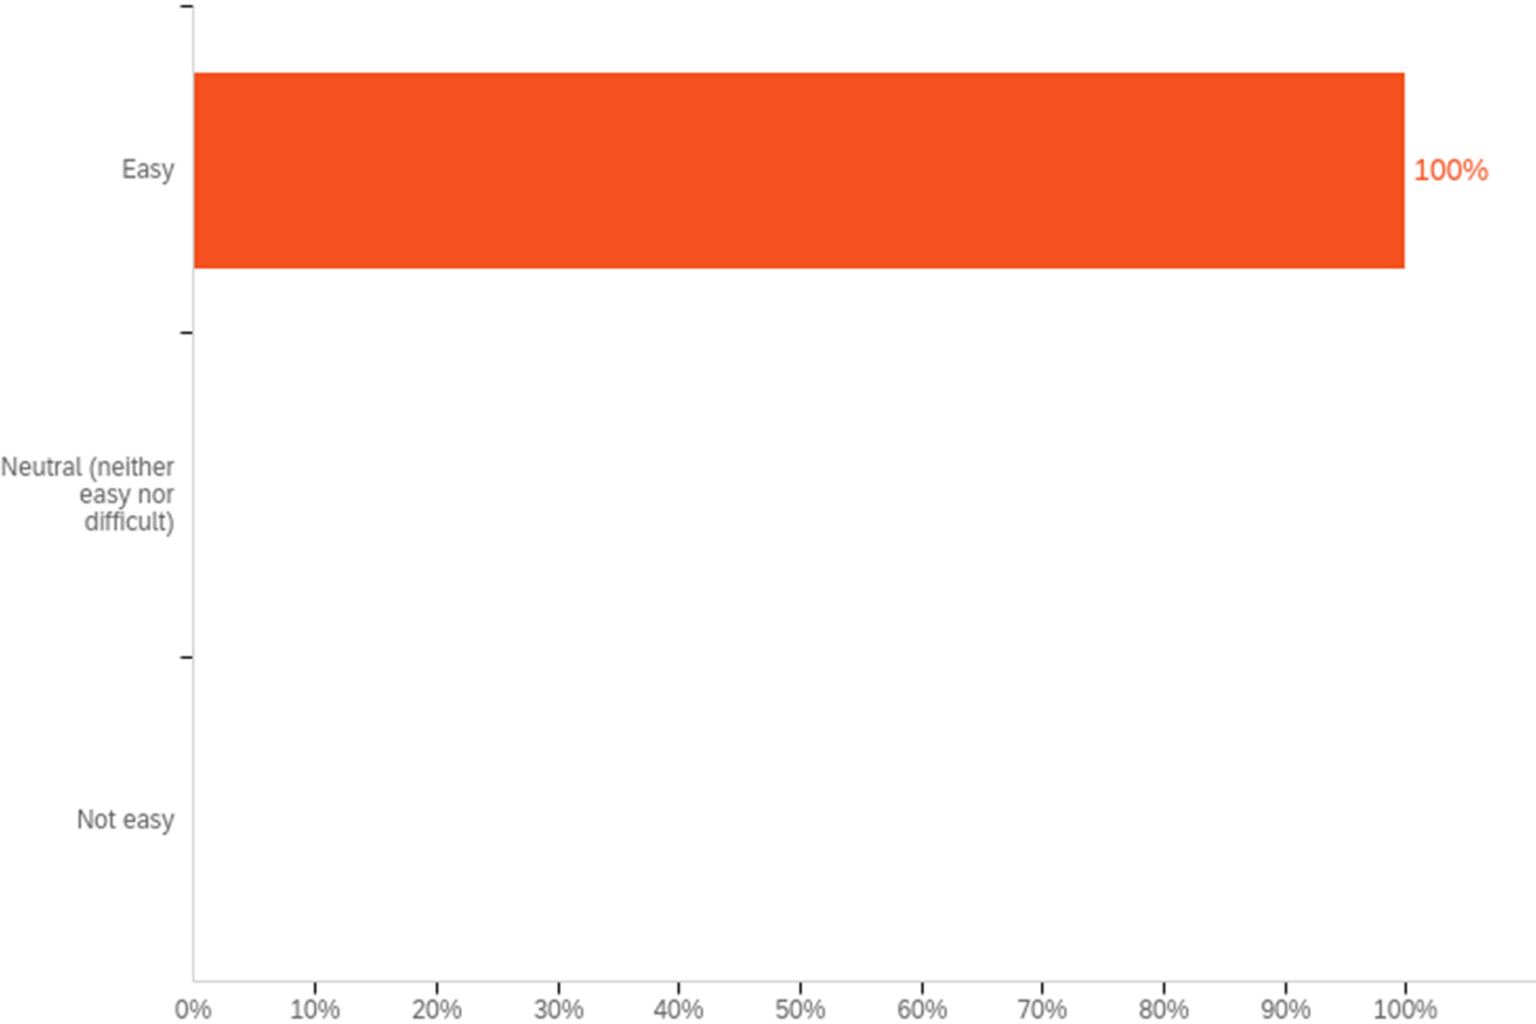

The Plant Disease Clinic implemented a fee in late 2021 with an option to pay by credit card via the Plant Disease Clinic sample payment website OR to pay by cash/check at your local VCE office. Select the method you used (or prefer to use):

We would like feedback on your experience using the Plant Disease Clinic sample payment website. Please select the button that best represents your experience for each statement listed:

Can you rank the ease of paying by cash/check at your VCE office?

Have you used plant diagnostic services other than the VT Plant Disease Clinic in 2022?
